## **DETAILED ACTION**

### ***Response to Amendment***

1. The proposed amendment and response, filed after-final on October 18, 2006, are noted. The proposed amendment places the application in condition for allowance and has been entered.
2. Claims 10-14, 16, and 43-61 are pending.

### ***Response to Arguments***

3. Applicant's arguments, set-forth in the response filed October 18, 2006 are noted. Because the claims have been amended to recite "pressurized water supply pipes" that "deliver water throughout the building," they are distinguished over Kamiya, which teaches non-pressurized, wastewater removal piping. Consequently, the rejections set-forth in the prior Office action are withdrawn.

### ***Allowable Subject Matter***

4. Claims 10-14, 16, and 43-61 are allowed.
5. The following is an examiner's statement of reasons for allowance: The prior art neither teaches nor suggests the claimed process for the cleaning and coating of pressurized water supply pipes that deliver water throughout the building.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
